

JÜRGEN BRANDSTETTER (PHD)

Founding Engineer / Product Manager / CTO

☎ +43 650 / 2379275

@ j@brandstetter.io

📍 Linz, Austria, EU

SUMMARY

With more than 10 years of experience as a founding engineer, I'm accustomed to wearing many hats. I manage and develop the product's underlying software architecture and its UX by working closely with the customer. Communication skills are a cornerstone of my role, enabling me to effectively translate complex technical concepts between cross-functional teams and customers/C-Level/Board. When it comes to the technical team, I oversee the development process, write code reviews, draft job offers, conduct interviews, provide constructive performance reviews, and mentor them to become seniors in their roles. Most importantly, I don't shy away from uncomfortable or complex conversations, employing an empathetic approach.

EXPERIENCE

Founding Engineer / Co-Founder (CTO)

[amy.app](#)

📅 2016 - Present 📍 Auckland, NZ

Personal AI Maths Tutor

- My job is to lead the development of our AI-driven maths tutor.
